Bio

Itai Green is the founder and CEO of Innovate Israel. He is one of the dominant leaders of Israel's corporate open innovation. Itai is recognized as a leading player in Israel's startup ecosystem and is at the forefront of launching its growth at a rapid pace. Itai leads innovation processes by connecting global corporations with the Israeli startup community to create advanced technological solutions; focusing on IT, consumer products, pharma, finance, travel, e-commerce, retail, banking, insurance, energy, construction tech and IoT. Itai is a member in several startup advisory boards.

Itai is the founder of the ITTS community (Israel Travel Tech Startups). ITTS houses 350 Israeli travel tech entrepreneurs and strengthens the internal collaboration between startups, as well as increases the level of engagement between startups, multinationals and investors.

Itai has also created the IITS community (Israel Insurance Tech Startups) for the Insurance start-up sector.
